

CLAIMS:

1. A trailer including:

(i) a trailer frame supported by ground engaging
5 wheels;

(ii) a pivot frame pivotally attached to the trailer frame
by pivot attachment means which pivot frame is attachable to
maintenance apparatus in use; and

(iii) connection means to a prime mover.
10

2. A trailer as claimed in claim 1 wherein the trailer frame is
U-shaped.

3. A trailer as claimed in claim 1 wherein the pivot frame is
15 U-shaped.

4. A trailer as claimed in claim 1 wherein the pivot
attachment means comprises a pair of pivot joints in opposed
relationship.
20

5. A trailer as claimed in claim 1 wherein the connection
means comprises a drawbar interconnecting the trailer frame and the
prime mover in use.

6. A trailer as claimed in claim 1 wherein the pivot frame overlies the trailer frame in transportation mode and is in abutment with the trailer frame.

5 7. A trailer as claimed in claim 6 wherein in a loading mode the pivot frame is pivotable upwardly relative to the trailer frame which is stationary to facilitate attachment to the maintenance apparatus.

10 8. A trailer as claimed in claim 1 wherein there is provided attachment means between the pivot frame and the maintenance apparatus which fixedly engages the maintenance apparatus so that upon pivotal movement of the pivot frame relative to the trailer frame the maintenance apparatus is elevated clear of the ground with a
15 substantial part of the maintenance apparatus avoiding contact with the trailer.

9. A trailer as claimed in claim 8 wherein said attachment means comprises a pair of opposed rigid couplings between the pivot
20 frame and the maintenance apparatus.

10. A trailer as claimed in claim 9 wherein each rigid coupling comprises a socket, channel or notch on the pivot frame for

engagement with corresponding projections of the maintenance apparatus.

11. A trailer as claimed in claim 10 wherein the projections
5 comprise outwardly extending axle ends or stub axles of a drive roller
or wheel axle of the maintenance apparatus.

12. A trailer as claimed in claim 1 comprising fluid actuated
means between the pivot frame and trailer frame.

13. A trailer substantially as herein described with reference
to the accompanying drawings.
